

Thinking about the Future

This is **Robert**. He is 26 years old.

He is thinking about his future. He is thinking about what he would like to do at different times in his life.

“In one year, I am going to start a new training program at Madison College.

“In five years, I will start my own business. I hope I am married! Maybe I will have my first child. I will apply to become a U.S. citizen.

“In ten years, I am going to have a house in the country. My kids will be in school. My brother and sister will live near me.

“In thirty years, I will be 59 years old. I hope to be in good health. My wife and I will sit on the porch together. I will play with my grandkids.”

My Future

Write about your future. You can also draw a picture. What will you do in one year? Five years? Ten years? Thirty years?

In one year,

In five years,

In ten years,

In thirty years,

Discuss:

When you were a child or a teenager, how did you think your life would be as an adult? Is that how your life is now, or is it different than what you expected?

Journal:

When you were a child or a teenager, how did you think your life would be as an adult? Is that how your life is now, or is it different than what you expected?
