

What's Wrong?

1. You feel lightheaded and you think you will faint. What's wrong?

2. You have a problem with your skin. Part of your skin is red and bumpy. What's wrong?

3. Even though you have a fever, you feel very cold. What's wrong?

4. Your daughter's nose is very full and it's hard to breathe. What's wrong?

5. The skin on your arm feels uncomfortable. You want to scratch it to make it feel better. What's wrong?

6. Your wife's throat hurts. It hurts to swallow. What's wrong?

7. Your daughter's body is very hot. Her temperature is over 98.6 degrees. What's wrong?

8. Your stomach feels sick. You feel like you need to vomit (throw up). What's wrong?
